CARE FOR WORK ENVIRONMENTS®

# One Solution™ Simple Button

The One Solution™ Simple Button is a great alternative for accurate, consistent dilution of chemical when a water source is not readily available or when a dilution system is not practical.

Designed to work with the One Solution™ cleaning system, the Simple Button provides users with these advantages:

- No contact with concentrated chemicals provides added safety to workers
- Accurate dilution: Can be set to 1 oz., 3/4 oz., or 1/2 oz. per stroke
- Low profile and rugged design stands up to hard use and assures long life
- Versatile: Great for bottle, bucket, or sink filling. Can also be used to dispense concentrate into larger equipment such as carpet extractors and auto scrubbers.

As the name states, operation is simple. Fill your bottle or bucket with the appropriate amount of water and then use the Simple Button to dispense the accurate dose of product and mix together to create a Ready-To-Use solution that is both cost effective and accurate every time you use it.

No more guessing and mixing concentrates at incorrect solutions. The One Solution™ Simple Button gives you cost-effective, accurate dilutions every time and maintains safety in your facility.

Dilution Range per Pump	
Minimum 1:128	Maximum 1:256

## One Solution™ Simple Button Equipment Kit

Part #124491

Includes:

- Simple Button Pump
- Suction Tubing
- Hardware Kit
- Mounting Plate
- Directional Spout
- 3/8" T x 1/4" T Adapter
- Sticker Labels
- 1-S 3L Bottle Rack
- Product Application Chart
