CARE FOR WORK ENVIRONMENTS<sup>®</sup>

# Kontrol®

## TOUGH DEODORIZING ACTION

Kontrol® is a liquid deodorizer that overpowers tough malodors, including stale, organic matter, smoke, decomposition, urine, vomit, mildew, trash and more. Kontrol penetrates the source of foul odors and replaces them with a fresh fragrance.

## SE-500® ODOR ELIMINATING TECHNOLOGY

Kontrol contains SE-500 odor-neutralizing additive which eliminates and neutralizes odors rather than just masking them. SE-500 eliminates odors for good by penetrating deep into fabrics, carpet and upholstery where trapped odors linger.

## ECONOMICAL

Kontrol is concentrated, which means only a few sprays are needed to eliminate foul odors and leave areas smelling fresh. Kontrol can be applied straight or diluted with water to create a powerful odor eliminator for pennies on the dollar.

## VERSATILE

Kontrol can be used anywhere malodors exist. Its water-based formula has a neutral pH and is generally safe on most surfaces and fabrics. Kontrol can be applied in a variety of methods including spray bottle, mechanical foggers and misting systems such as State's Fogmaster, Jr.

## DIRECTIONS FOR USE:

Apply Kontrol on or around malodors. For heavy-duty odors, spray Kontrol undiluted or mix with water according to the instructions below. Kontrol can be applied using a spray bottle, mechanical fogger or misting system, such as State's Fogmaster Jr.

**Note:** Do not use through a heat or thermal fogger. Before spraying on carpets, upholstery, or fabrics, test on an inconspicuous area.

## DILUTION INSTRUCTIONS

- Carpet shampooing: add 1-2 ounces of Kontrol in 1 gallon of diluted carpet cleaner
- Garbage compactors: dilute Kontrol 1:21 (6oz./gallon) and spray directly into and around compactor
- General odor control: dilute Kontrol 1:64 (2oz./gallon) and spray or mist directly where odors exist or into the air

Please review the label and SDS for all product directions, precautions and first aid information.
