Knock Out

Graffiti Remover

CLEANS WHAT ORDINARY CLEANERS CANNOT

Knock Out's powerful formula is made for the tough jobs - embedded soil, layered soap scum, and filthy scratched-on drawings. Spray on a penetrating coating of cleaning power and watch Knock Out go to work!

CLINGS TO VERTICAL SURFACES

Knock Out's thickened formula holds fast until soil is dissolved - won't run off brick walls, shower stalls, or tires. The longer the cling, the more thorough the cleaning job!

SAFE ON MOST METALS

Use Knock Out almost anywhere - in machine shops, on tools, parts, machinery and equipment. The formula will not harm metal - not even aluminum.

DIRECTIONS FOR USE:

1. Shake well before using.
2. Hold can 6 to 10 inches from surface to be sprayed. Cover surface with a thin, even coating.
3. Do not use on painted or varnished surfaces if paint removal is not desired. Immediately wipe off any overspray.
4. Wait 3 to 5 minutes to allow Knock Out to penetrate. Wipe surface with a damp rag or sponge. For tough stains, use a mild abrasive pad. On rough surfaces such as brick, use a brush.
5. Rinse surface with clean water.
6. To prevent clogging, turn can upside down and spray a short jet of gas after completing each job.

NOTE: Before using, always test on a small area of the surface to be cleaned to be sure there is no attack. Note any change in color or texture.

Please review label and SDS for all product directions, precautions and first aid information.

TECHNICAL DATA:

APPEARANCE: aerosol spray

ODOR: ammonia odor

pH: 9.75

DELETERIOUS EFFECT ON: grouting: none; ceramic tile: none; stainless steel: none; vinyl: none; painted surfaces: may attack some paints - test small area before use; terrazzo: none; aluminum: none.

SHELF STABILITY: minimum one year

COLD STABILITY: 32°F
