## Manual Pot & Pan Detergent

### **COST EFFECTIVE CONCENTRATE**

Sta-Glo Professional is a super concentrate manual pot and pan detergent that is economical to use. Sta-Glo Professional is a dependable, high sudsing formulation that easily cuts through grease and baked on food soils, leaving a squeaky clean surface. This high sudsing product lasts longer, reducing the number of sink change outs. Sta-Glo Professional is powerful enough to clean difficult food soils, however, gentle enough for dishware and hands.

### **VERSATILE**

Sta-Glo Professional works well in both hot and cold water, and in hard water. Sta-Glo Professional is free rinsing and will eliminate hard water films common to hard water areas.

### **ECONOMICAL PORTION CONTROL**

State's concentrated Sta-Glo Professional can be diluted to meet your specific needs. Sta-Glo Professional can be manually diluted, or for best results, use State's One Solution™ dispensing system to assure accurate dispensing for optimum cost control, product performance, and work place safety.

### **AUTHORIZATION**

Sta-Glo Professional is Kosher certified.

## Manual Pot & Pan Detergent

### directions

Use 1/2 ounce to one gallon of wash water. For difficult soils or heavy grease use up to 2 ounce to a gallon of water.

1. Soak pots and pans in Sta-Glo Professional treated wash water for 5 minutes.
2. Brush pots and pans thoroughly.
3. Rinse pots and pans.
4. For three sink applications soak pots and pans in a cold solution of sanitizer for at least one minute. For best results use one of State's No-Rinse sanitizers.
5. Remove pots and pans and air dry.

Ask your Account Manager about a One Solution™ Three-Sink program that includes Sta-Glo Professional and one of State's No-Rinse Sanitizers for an economical and efficient manual warewash program.
